DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

I. PERFORMANCE SPECIFICATIONS AND REQUIREMENTS - COVERS

C.1 PART I: COVERS The contractor shall manufacture and deliver 150 each covers, per drawing ACV00512 or ACV00512R, in support of the Multiple Round Container Program and as specified by the terms and conditions contained herein.

C.2 Objectives

C.2.1 Phase I- Fabricate in total six (6) covers for inspection and First Article Testing per the provided technical drawings, delineated as follows: four (4) covers of the 8 bolt configuration, drawing ACV00512, and two (2) covers of the 12 bolt configuration, drawing ACV00512R.

C.2.2 Phase II- Upon successful completion of First Article Testing, fabricate 150 covers, per Government drawings ACV00512 or ACV00512R and deliver. The shipping point will be provided after award of purchase order

C.3 Requirements

C.3.1 Configuration: Each cover shall meet the dimensional, material, and surface finish requirements per Government drawing ACV00512 and ACV00512R.

C.3.2 Performance: Each cover shall pass First Article performance testing as designated by ECBC-RI. First Article testing will include 100% government inspection of those items. Government inspection of First Article items will occur at the destination point for these items, i.e. the assembly point.

C.4 Statement of Work

C.4.1 General: The contractor shall furnish the necessary services, labor, personnel, facilities, supplies, materials, and equipment (including fabrication machinery and quality assurance measurement devices) to perform the following manufacturing work.

C.4.2 Specific: Phase I: Fabricate Six (6) total covers for First Article Testing. Contractor shall complete the six First Article items within 28 days of the contract award, delineated as follows: four (4) covers of the 8 bolt configuration, drawing ACV00512, and two (2) covers of the 12 bolt configuration, drawing ACV00512R. Careful attention must be paid to achieving no greater than a 32 micro-inch finish in the o-ring contact areas of the cover. A burnishing tool is recommended to help achieve this requirement, but is not required. Upon completion, the government will conduct 100% quality dimensional and surface profile checks on First Article samples at the assembly point. Once government QA inspections are completed, items will be shipped. The shipping point will be provided after award of purchase order. Inspection of First Article items will be made within 1 week of delivery of First Article items to assembly point.

C.4.3 Specific: Phase II: Manufacturing, Production, and Quality Assurance. The contractor shall, following successful First Article Test completion, commence production of 150 covers for the 9x41 MRC program according to either Government drawing ACV00512 or ACV00512R. The government will notify the contractor within 6 weeks of receipt of First Article Items on the approval, conditional approval, or disapproval of first article items per the outcome of the First Article test.

C.4.4 The contractor shall serialize each cover by stamping in 1/8 inch high lettering using designated serial number KK 001_ _ through KK 150_ _ so each cover can be identified. First article items shall be stamped FAT1, FAT2, etc. See drawing SN_M941_2005 for details. Note: The two alphabet characters specified in the drawing for the end of the serial number will be provided after the award of the purchase order.

C.4.5 The contractor shall make quality inspections on 100% of items produced (at selected points) and will complete the attached government furnished inspection sheet, attachment 0003, for each item. Inspections will include both dimensional and surface roughness measurements. A government QA inspector will visit the contractors production facility at the end of production and check a random sample of items to determine if items were manufactured per the drawings. Acceptance of the production items requires that all inspection points be within tolerance and be annotated on the inspection sheet for each item.

C.5 The contractor shall deliver FOB destination, no later than 112 days after the contract is awarded, the 150 covers. The shipping point will be provided after award of purchase order.

II. PERFORMANCE SPECIFICATIONS AND REQUIREMENTS - FLANGES

C.6 PART II: FLANGES The contractor shall manufacture and deliver 150 each flanges, per drawing ACV00510 or ACV00510R, in support of the Multiple Round Container Program and as specified by the terms and conditions contained herein.

C.7 Objectives

C.7.1 Phase I- Fabricate six (6) total flanges for inspection and First Article Testing per the provided technical drawings, delineated as follows: four (4) flanges of the 8 bolt configuration, drawing ACV00510, and two (2) flanges of the 12 bolt configuration, drawing

C.7.2 Phase II- Upon successful completion of First Article Testing, fabricate 150 flanges per drawing ACV00512 or ACV00512R and deliver. The shipping point will be provided after award of purchase order.

C.8 Requirements

C.8.1 Configuration: Each flange shall meet the dimensional, material, and surface finish requirements per the Government drawing ACV00510 and ACV00510R.

C.8.2 Performance: Each flange shall pass First Article performance testing as designated by ECBC-RI. First Article testing will include 100% government inspection of those items. Government inspection of First Article items will occur at the destination point for these items, i.e. the assembly point.

C.9 Statement of Work

C.9.1 General: The contractor shall furnish the necessary services, labor, personnel, facilities, supplies, materials, and equipment (including fabrication machinery and quality assurance measurement devices) to perform the following manufacturing work.

C.9.2 Specific: Phase I: Fabricate Six (6) flanges for First Article Testing. Contractor shall complete the four First Article items within 28 days of the contract award, delineated as follows: four (4) flanges of the 8 bolt configuration, drawing ACV00510, and two (2) flanges of the 12 bolt configuration, drawing ACV00510R. C.9.3 Specific: Phase II: Manufacturing, Production, and Quality Assurance. The contractor shall, following successful First Article Test completion, commence production of 150 flanges for the 9x41 MRC program according to either Government drawing ACV00510 or ACV00510R. The government will notify the contractor within 6 weeks of receipt of First Article Items on the approval, conditional approval, or disapproval of first article items per the outcome of the First Article test.

C.9.4 The contractor shall serialize each flange by stamping in 1/8 inch high lettering using designated serial number KK 001_ _ through KK 150_ _ so each flange can be identified. First article items shall be stamped FAT1, FAT2, etc. See drawing SN_M941_2005 for details. Note: The two alphabet characters specified in the drawing for the end of the serial number will be provided after the award of the purchase order.

C.9.5 The contractor shall make quality inspections on 100% of items produced (at selected points) and will complete the attached government furnished inspection sheet, attachment 0003, for each item. Inspections will include both dimensional and surface roughness measurements. A government QA inspector will visit the contractors production facility at the end of production and check a random sample of items to determine if items were manufactured per the drawings. Acceptance of the production items requires that all inspection points be within tolerance and be annotated on the inspection sheet for each item.

C.10 The contractor shall deliver FOB destination, no later than 112 days after the contract is awarded, the 150 flanges. The shipping point will be provided after award of purchase order.

	LOCAL		

a. The first article shall consist of: SEE SECTIONS C AND E FOR FIRST ARTICLE REQUIREMENTS; which shall be examined and tested in accordance with contract requirements, the item specification (s), the Quality Assurance Provisions (QAPS) and drawings listed in the Technical Data Package.

b. The first article shall be delivered to: SEE SECTIONS C AND E. The first article shall be delivered by the Contractor Free on Board (FOB) destination except when transportation protective service or transportation security is required by other provision of this contract. If such is the case, the first article shall be delivered FOB origin and shipped on Government Bill of Lading.

c. The first article shall be representative of items to be manufactured using the same processes and procedures as contract production. All parts and materials, including packaging and packing, shall be obtained from the same source of supply as will be used during regular production. All components, subassemblies, and assemblies in the first article sample shall have been produced by the Contractor (including subcontractors) using the technical data package provided by the Government.

d. Prior to delivery, each of the first article assemblies, subassemblies, and components shall be inspected by the Contractor for all contract, drawing, QAP and specification requirements except for any environmental or destructive tests indicated below: SEE SECTIONS C AND E FOR FIRST ARTICLE REQUIREMENTS. The Contractor shall provide to the Contracting Officer at least 15 calendar days advance notice of the schedule date for final inspection of the first article. Those inspections which are of a destructive nature shall be performed upon additional sample parts selected from the same lot(s) or batch(es) from which the first article was selected. Results of contractor inspections (including supplier's and Vendor's inspection records when applicable) shall be verified by the Government Quality Assurance Representative (QAR). The QAR shall attach to the contractor's inspection report a completed DD Form 1222. One copy of the contractor's inspection report with the DD Form 1222 shall be forwarded with the first article; two copies shall be provided to the Contracting Officer. Upon delivery to the Government, the first article may be subjected to inspection for all contract, drawing, specification, and QAP requirements.

e. Notwithstanding the provisions for waiver of first article, an additional first article sample or portion thereof, may be ordered by the Contracting Officer in writing when (i) a major change is made to the technical data, (ii) whenever there is a lapse in production for a period in excess of 90 days, or (iii) whenever a change occurs in the place of performance, manufacturing process, material used, drawing, specification or source supply. When conditions (i), (ii), or (iii) above occurs, the Contractor shall notify the Contracting Officer so that a determination can be made concerning the need for an additional first article sample or portion thereof, and instructions provided concerning the submission, inspection and notification of results. Costs of the first article testing resulting from production process change, change in the place of performance, or material substitution shall be borne by the Contractor.

f. Rejected first articles or portions thereof not destroyed during inspection and testing will be held at the government first article test site for a period of 30 days following the date of notification of rejection, pending receipt of instructions from the Contractor for the disposition of the rejected material. The Contractor agrees that failure to furnish such instructions within said 30 day period shall constitute abandonment of said material by the Contractor and shall confer upon the Government the right to destroy or otherwise dispose of the rejected items at the discretion of the Government without liability to the Contractor by reason of such destruction or disposition.

- a. Rework and Repair are defined as follows:
- (1) Rework - The reprocessing of nonconforming material to make it conform completely to the drawings, specifications or contract requirements.
- (2) Repair - The reprocessing of nonconforming material in accordance with approved written procedures and operations to reduce, but not completely eliminate, the nonconformance. The purpose of repair is to bring nonconforming material into a usable condition. Repair is distinguished from rework in that the item after repair still does not completely conform to all of the applicable drawings, specifications or contract requirements.
- b. Rework procedures along with the associated inspection procedures shall be documented by the Contractor and submitted to the Government Quality Assurance Representative (QAR) for review prior to implementation. Rework procedures are subject to the QAR's disapproval.
- c. Repair procedures shall be documented by the Contractor and submitted on a Request for Deviation/Waiver, DD Form 1694, to the Contracting Officer for review and written approval prior to implementation.
- d. Whenever the Contractor submits a repair or rework procedure for Government review, the submission shall also include a description of the cause for the nonconformances and a description of the action taken or to be taken to prevent recurrence.
- e. The rework or repair procedure shall also contain a provision for reinspection which will take precedence over the Technical Data Package requirements and shall, in addition, provide the Government assurance that the reworked or repaired items have met reprocessing requirements.

military or Federal specification or standard at specific facilities. Under SPI, these processes are reviewed and accepted by a Management Council, which includes representatives of the Contractor, the Defense Contract Management Agency, the Defense Contract Audit Agency, and the military departments.

(b) Offerors are encouraged to propose SPI processes in lieu of military or Federal specifications and standards cited in the solicitation. A listing of SPI processes accepted at specific facilities is available via the Internet in Excel format at <http://www.dcmamilitary.com/onebook/7.0/7.2/7.2.6/reports/modified.xls>.

(c) An offeror proposing to use an SPI process in lieu of military or Federal specifications or standards cited in the solicitation shall

- (1) Identify the specific military or Federal specification or standard for which the SPI process has been accepted;
- (2) Identify each facility at which the offeror proposes to use the specific SPI process in lieu of military or Federal specifications or standards cited in the solicitation;
- (3) Identify the contract line items, subline items, components, or elements affected by the SPI process; and
- (4) If the proposed SPI process has been accepted at the facility at which it is proposed for use, but is not yet listed at the Internet site specified in paragraph (b) of this clause, submit documentation of Department of Defense acceptance of the SPI process.

(d) Absent a determination that an SPI process is not acceptable for this procurement, the Contractor shall use the following SPI processes in lieu of military or Federal specifications or standards:

(Offeror insert information for each SPI process)

SPI Process:

Facility:

Name of Offeror or Contractor:

United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that

(A) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(B) It is inconsistent with the public interest to apply the restrictions of the Buy American Act.

(3) End product means those articles, materials, and supplies to be acquired under this contract for public use.

(4) Foreign end product means an end product other than a domestic end product.

(5) Qualifying country means any country set forth in subsection 225.872-1 of the Defense Federal Acquisition Regulation Supplement (DFARS).

(6) Qualifying country component means a component mined, produced, or manufactured in a qualifying country.

(7) Qualifying country end product means

(i) An unmanufactured end product mined or produced in a qualifying country; or

(ii) An end product manufactured in a qualifying country if the cost of the following types of components exceeds 50 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States.

(b) This clause implements the Buy American Act (41 U.S.C. Section 10a-d). Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American ActBalance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, the Contractor shall deliver a qualifying country end product or, at the Contractors option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(ii) It () is, () is not a joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (b)(6)(i) of this provision is accurate for the HUBZone small business concern or concerns that are participating in the joint venture. [The offeror shall enter the name or names of the HUBZone small business concern or concerns that are participating in the joint venture: .] Each HUBZone small business concern participating in the joint venture shall submit a separate signed copy of the HUBZone representation.

(c) Definitions. As used in this provision-

"Service-disabled veteran-owned small business concern"-

(1) Means a small business concern-

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

"Small business concern" means a concern, including its affiliates that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (a) of this provision.

"Veteran-owned small business concern" means a small business concern-

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

"Women-owned small business concern" means a small business concern-

(1) That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

(d) Notice.

(1) If this solicitation is for supplies and has been set aside, in whole or in part, for small business concerns, then the clause in this solicitation providing notice of the set-aside contains restrictions on the

ECONOMIC PURCHASE QUANTITY-SUPPLIES

MAY/2004

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

42 52.214-7 LOCAL HAND-DELIVERED BIDS, QUOTES, OR PROPOSALS AUG/2004

Effective 09 August 2004, should you elect to hand-deliver your bid, quote, or proposal, you must enter Rock Island Arsenal via the Moline entrance gate, and proceed to the Visitor Control Center (Building 23) to obtain a security badge/registration.

The Visitor Control Center hours of operation are from 6:00 a.m. until 3:30 p.m. CT. Upon arrival, ask the Visitor Control Center attendant to contact the AFSC Bid, Quote and Proposal Receiving Area, (309)782-7245/5053. If there is no answer on either of these extensions, the attendant should call (309)782-6895 to reach an alternate point of contact. If you use a delivery service it is your responsibility to ensure they are provided these instructions.

For deliveries made after 3:30 p.m. CT, the carrier must ask the Police Officer at the Moline entrance gate to call the AFSC Proposal Receiving Area or alternate number provided in the preceding paragraph so a visitor decal can be issued to enter the Arsenal. The carrier must then proceed to Police Headquarters, Building 225, to obtain a badge, as one cannot be issued out at the gate after 3:30 p.m. CT.

Delivery is to be made to Building 350, 5th Floor, North Bay between Poles E3 and E4, "Bid, Quote, and Proposal Receiving Area", (309)782-7245/5053.

Packages must be delivered between the hours of 8:00 a.m. and 4:00 p.m. CT, Monday through Friday. No packages will be accepted on Federal Holidays.

43 52.222-1100 10 U.S.C. 4543 PILOT PROGRAM FEB/2003
LOCAL

Congressional language in Section 141 of the 1998 Defense Authorization Act (10 U.S.C. 4543 Pilot Program) allows "not more than three Army Industrial facilities" to sell manufactured articles and services in support of DoD weapons systems without regard to availability from domestic sources. The three Army industrial facilities in this program are McAlester Army Ammunition Plant, McAlester, OK; Rock Island Arsenal, Rock Island, IL; and Watervliet Arsenal, Watervliet, NY.

These facilities cannot submit offers as the prime contractor on this solicitation, but in accordance with the above-described pilot program can act as a subcontractor to potential prime contractors when the statutory requirements (10 U.S.C. 4543) are met.

If you are interested in obtaining information about their capabilities, please contact the following:
